

Visual Computing Research Conference

Organized by the Intel Visual Computing Institute, Saarbrücken 8-10 December 2009

Science meets application at the Visual Computing Research Conference

The answers to your questions are virtually in your hands!

Today, we are pleased to invite you personally to the first **Visual Computing Research Conference** endorsed by the Intel Visual Computing Research Institute. Researchers from academia and industry are meeting in Saarbrücken to discuss visionary opportunities for **closing the gap between research and product innovation.**

- Innovative Applications** using Visual Computing
- Research results** adding new impulses and enriching the latest state of visual technology
- Visions** showing which technical premises must be provided in the future

In conjunction with the Visual Computing Conference the Intel VCI will publish a Request for Proposal (RPD) and start to sponsor open collaborative research between academia and industry. **Stay tuned!**

Take this chance to collaborate with the Intel Visual Computing Institute and network with key players. Make use of the opportunity to present your project in a scientific paper or presentation to representatives of industry and academia looking forward to collaborate.

Please click [here](#) to get more information about how to contribute and benefit from this opportunity!

Apart from the possibility to contribute, an exciting program is waiting for you. Please click [here](#) for an exact time schedule. Detailed information on sessions and speakers as well as all necessary information regarding registration, location, evening program and your free hotel booking can be found [here](#).

Be part of the community! Contribute! [Register Now!](#)

We are looking forward to meeting you at this groundbreaking new forum. If you are unable to attend, please feel free to pass the invitation on to a colleague.
